We are of the opinion that no article has ever been made which will give as much satisfaction to the woman of today as "The Ladies' Safe Protector." The immense sales of this article is a substantial endorsement of our claim. Do not therefore experiment with any of the numerous unreliable articles, as it is both dangerous to health and expensive to do so. Such experimenting can only result in loss of time, disappointment and dismal failure. Ladies should remember this before ordering goods and not waste their time and money on inferior articles. The best is always the cheapest. AN ATTRACTIVE HAT.

A Forgetful Preacher Did Not Remove the Wrapping Paper.

A distinguished preacher of somewhat arbitrary manners was engaged to preach in Belgravia, and purchased a new hat for the occasion, says Pearson's Weekly. He was met outside his residence by a young man who was to guide him to the church. His guide, after what the parson thought a rude stare and smile, said: "I beg your pardon, sir, but your hat—"

"Oh, yes! never mind the hat, but mind your own business," the parson interrupted curtly; and the young man was silenced. The people they met stared and smiled too.

"Strange how many people notice when one has got a new hat," thought the parson. The church was reached and the worshippers approaching naturally turned to observe the noted preacher.

The vicar met him at the vestry door to welcome him, but, hesitating, said: "Pardon me, canon, but pray, why do you wear your hat so?"

The tie was doffed and the outside found to be still covered with white paper which the absent-minded divine had not removed.

Within a few days of area set aside for weighing gold coin, instead of counting it as heretofore, the little custom house has rejected more than two thousand dollars of underweight coin.

It was a hardened western tramp who broke into a morgue recently and stole a suit of clothes belonging to a suicide. And now another of the brotherhood has broken into the sheriff's office in Wichita, Kan., and stolen money belonging to the local Christian Endeavor society.

A PROSPECTOR from the Pend d'Oreille district came into Hope, Idaho, a week or so ago to sell the furs he had gathered in odd moments of trapping during his winter's mining operations. He had the skins of seven bears, eight beavers, eighteen martens and a number of wolf, fox and other pelts.

FROM the top of the cathedral spire in Mexico you can see the entire city, and the most striking feature of the view is the absence of chimneys. There is not a chimney in all Mexico, not a grate, nor a stove, nor a furnace. All the cooking is done with charcoal in Dutch ovens.

BIG PROFITS ON SMALL INVESTMENTS.

Returning prosperity will make many rich, but nowhere can they make so much within a short time as by successful Speculation in Grain, Provisions and Stock.

\$10.00 FOR EACH DOLLAR INVESTED can be made by our Systematic Plan of Speculation

originated by us. All successful speculators operate on a regular system.

It is well known that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 or \$100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

WRITE FOR CONVINCING PROOFS, also our Manual on successful speculation and our Daily Market Report, full of money-making pointers. ALL FREE. Our Manual explains margin trade fully. Highest references in regard to our standing and success.
